PROFESSIONAL SUMMARY

4th year CS student transforming ideas into scalable solutions. Full-stack developer with hands-on experience in AI/ML projects with hands-on experience building web applications end-to-end, from React/Node.js interfaces to backend logic and database design.

TECHNICAL SKILLS

Programming Languages: Python, Java, JavaScript

Web Development: React.js, Node.js, Express.js, Tailwind CSS

Databases: MongoDB, MySQL

Data Visualization: Power BI

Tools & Platforms: Git, GitHub, VS Code, Oracle Cloud Infrastructure, Claude

EDUCATION

Techno Institute of Engineering and Management, Kolkata, India

Bachelor of Technology in Computer Science and Engineering — CGPA: 7.52/10

Expected May 2027

- Relevant Coursework: Data Structures & Algorithms, OOP, Operating Systems, DBMS

Shreyians Coding School

Currently Enrolled – Foundational Coding Training

Ongoing

- Advanced training in full-stack development, software engineering principles, and modern coding practices

City Public School, Gaya, Bihar

Higher Secondary Education (CBSE) — Percentage: 78.8%

2022

PROFESSIONAL EXPERIENCE

Software Development Intern, Infyntrek Systemes (Remote)

Feb 2026 – Apr 2026

- Built a full-stack AI-powered financial intelligence platform for personal finance management and business analytics.
- Developed NiveshView, a personal finance dashboard, using React.js, Python, and machine learning for expense tracking, budget analysis, and financial insights.

Technical Mentee, Codess.Cafe – Women in Tech Mentorship Program (Remote) Dec 2023 – Dec 2024

- Selected from 750+ applicants nationwide for a 12-month mentorship program supporting women in technology and software engineering.
- Worked with senior engineers and industry mentors on technical projects, including code reviews, architecture discussions, and pair programming.

PROJECTS

Developer Portfolio Website | HTML5, CSS3, Vanilla JS, Particles.js

2026

- Designed and developed a fully responsive, custom personal portfolio to showcase projects and experience with smooth scroll animations and interactive SVG elements.
- Implemented magnetic hover effects and dynamic dark-to-light theme transition for enhanced user engagement and modern aesthetic appeal.

NiveshView – Personal Finance Management Dashboard | Python, React.js, AI, Machine Learning May 2026

- Built a personal finance platform with automated expense tracking, budget analysis, and AI-powered financial insights for optimizing savings.
- Implemented interactive dashboards with real-time data visualization, predictive analytics for spending patterns, and personalized recommendations.

AI-Based Dropout Detection and Counselling System | *Node.js, Python, Tailwind CSS, Power BI* SIH 2025

- Proposed an ML model to predict student dropout risk using academic performance, attendance, behavioral, and socio-economic indicators.
- Designed a personalized counselling and intervention framework with Power BI visualizations for real-time monitoring.

CERTIFICATIONS

Codess.Cafe Women in Tech Mentorship Program – January 2026
Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate
Anthropic – Claude 101 – [Credential](#)
Claude Code in Action – [Credential](#)

ACHIEVEMENTS

Participated in Smart India Hackathon (SIH) 2025
Active member of the Techno Engineering College club
Attended Global Entrepreneurship Summit at IIT kharagpur
Attended GDG Kolkata
