PROFESSIONAL SUMMARY

Full-stack developer and Computer Science undergraduate with hands-on experience building web applications end-to-end, from React/Node.js interfaces to backend logic and database design. Proficient in Python, Java, and JavaScript, with practical exposure to AI-based solutions and cloud infrastructure.

TECHNICAL SKILLS

Programming Languages: Python, Java, JavaScript, C
Web Development: React.js, Node.js, Express.js, Tailwind CSS
Databases: MongoDB, MySQL
Data Visualization: Power BI
Tools & Platforms: Git, GitHub, VS Code, Oracle Cloud Infrastructure, Claude
CS Fundamentals: Data Structures & Algorithms, OOP, Operating Systems, DBMS

EDUCATION

Techno Institute of Engineering and Management, Kolkata, India Expected May 2027

Bachelor of Technology in Computer Science and Engineering | CGPA: 7.63/10

Relevant Coursework: Data Structures & Algorithms, OOP, Operating Systems, DBMS

Currently enrolled at Shreyians Coding School for foundational coding training

City Public School, Gaya, Bihar 2022

Higher Secondary Education (CBSE) | Percentage: 78.8%

PROFESSIONAL EXPERIENCE

Software Development Intern, Infyntrek Systemes (Remote) Feb 2026 – Apr 2026

- Built a full-stack AI-powered financial intelligence platform for personal finance management and business analytics.
- Developed NiveshView, a personal finance dashboard, using React.js, Python, and machine learning for expense tracking, budget analysis, and financial insights.

Technical Mentee, Codess.Cafe – Women in Tech Mentorship Program (Remote) Dec 2023 – Dec 2024

- Selected from 750+ applicants nationwide for a 12-month mentorship program supporting women in technology and software engineering.
- Worked with senior engineers and industry mentors on technical projects, including code reviews, architecture discussions, and pair programming.

PROJECTS

NiveshView – Personal Finance Management Dashboard May 2026

Python, React.js, AI, Machine Learning

- Built a personal finance platform with automated expense tracking, budget analysis, and AI-powered financial insights for optimizing savings.
- Implemented interactive dashboards with real-time data visualization, predictive analytics for spending patterns, and personalized recommendations.

AI-Based Dropout Detection and Counselling System SIH 2025

Node.js, Python, Tailwind CSS, Power BI

- Proposed an ML model to predict student dropout risk using academic performance, attendance, behavioral, and socio-economic indicators.
- Designed a personalized counselling and intervention framework with Power BI visualizations for real-time monitoring.

Healthcare Support Web Application 2025

HTML, CSS, JavaScript, GitHub

- Built a web application enabling patients and volunteers to submit support requests through an intuitive online form, with an automated acknowledgment system that reduced manual effort and improved response communication for healthcare NGOs.

CERTIFICATIONS

- Codess.Cafe Women in Tech Mentorship Program — January 2026
- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate
- Anthropic — Claude 101 — <https://verify.skilljar.com/c/kew33thkhben>
- Claude Code in Action — <https://verify.skilljar.com/c/haekna8aw8e5>

ACHIEVEMENTS

- Participated in Smart India Hackathon (SIH) 2025; active member of the university coding club; strong problem-solving and competitive programming ability (active on LeetCode).
